BRIEF

I am a Full Stack Web Developer with expertise in C# .NET Framework. I have a passion for development and design, and aspire to be the best of both worlds in terms of Web and Application Design with tools like Figma, Photoshop, Houdini and Lightroom, and Software and Web Development with languages such as C#, Javascript, React, Python and Java.

As a developer, I take great pride in my ability to design, program, and document tasks effectively. I am committed to leveraging my years of expertise to become a knowledgeable professional in emerging technologies and their implementation. My goal is to enhance productivity and user experience through the combination of UX/UI design and development. Seeking enterprise experience, I aim to expand my knowledge and apply it to the industry for improved outcomes.

PRIOR AND CURRENT WORK

Service Today

Position: Software Developer

Sydney

February 2024 –Present

- I was taken on to assist in developing a SaaS Web Application for Service Today, alongside a number of general IT applications. My task is developing a foundation for the React project and migrate existing data from the old system.

NCS Australia

Position: Associate Engineer

Sydney

July 2022 –November 2023

- Specialized in ASP .NET MVC Core Web Development, engaging in full-stack web development encompassing React, Angular, JavaScript, jQuery, SQL, C#, HTML, and CSS.
- Continuously expanding knowledge and expertise in front-end and back-end languages, best practices, and emerging technologies. Also exploring web design principles and network hosting solutions.
- Prior to March 2023, I was part of Dialog IT as a Graduate Developer. Since March, Dialog and a number of other companies have been acquired under the one company NCS Australia.

SAPHI

Position: Work Integrated Learning Researcher and Designer

New Lambton

March 2021 –November 2021

- Contributed to SAPHI for a period of 10 months as part of my university degree, conducting comprehensive market research, designing user interfaces, analyzing documentation, and providing proofreading assistance.

EDUCATION

University of Newcastle

Bachelor of I.T. (Double Major)

Newcastle, NSW

2018–2022

- Major in “Systems Development” and “Interactive Media”
- Moved from the Upper Hunter Valley to Newcastle to study full-time. Worked casual work hours on the side to cover living expenses while staying in Newcastle.

SKILL KITS

• Windows OS	13+ Years
• Mac OS	10+ Years
• Microsoft Office	9+ Years
• HTML and CSS	8+ Years
• Visual Studio/VSCode	6+ Years
• Adobe Suite	5+ Years
• Microsoft SSMS	4+ Years
• Linux OS	3+ Years
• GitHub	3+ Years
• Azure services	2 Years
• Figma	2 Years
• Azure Data Studio	1 Year

CODE LANGUAGES

• C#	6+ Years
• JavaScript	4+ Years
• RiveScript	3+ Years
• Java	2+ Years
• Python	1+ Years
• C++	1 Year
• React	1 Year

QUALIFICATIONS AND CERTIFICATES

- **Working with Children Check** Online
Valid until: (Sept 2027)

Sept 2022

PROJECTS

“Desto” Chat Application

Online

Position: Lead Developer & Designer

2023

- While working under NCS Australia, I took on learning the language of React. As part of my learning experience, I chose to apply my new knowledge of React into an IP project. I designed the layout in Figma, wrote the application in React, handled back-end with an Azure API and an SQL Database.
- I plan to continue this project outside of NCS Australia as a project I can continue to learn React with.

Work Integrated Learning as SAPHI

Online and In-Person

Position: Researcher and Designer

2021

- SAPHI accepted myself and a teammate to assist with Industry Research, Social Presence and Design. During the first semester, we met up at SAPHI to work on our research tasks and ways to improving social presence. Semester 2 consisted of doing market research and design.
- One of the design tasks I produced and designed was featured on SAPHI's LinkedIn page with good overall feedback in post reactions and comments, as well as a response from an industry partner with an enquiry on potential future tasks.

COURSES SUCCESSFULLY COMPLETED

Online Courses ASP.NET MVC 5 Essential Training / JavaScript Essential Training / React.js Essential Training

University Courses Application Programming / Business Analysis / Computing Fundamentals / Data Structures / Discrete Mathematics / Digital Technologies for Media & Entertainment / Foundations Of Information Systems / Games Production / Human-Computer Interaction / Interactive Media / Mobile Application Programming / Object Oriented Programming / Project Management / Social & Interactive Media / System Analysis & Design / System & Network Administration / Web Technologies / Web Programming / Work Integrated Learning / 3D Animation

EXTRACURRICULAR ACTIVITIES

- “Volunteer” and “Assistant Manager” of the Denman Farmers Market 2011–2017
Volunteered to assist the local farmers market in my home town. Included moving heavy equipment for management and stall holders. Took up the position of Assistant Manager in 2015, requiring assisting with book keeping, money handling and social networking alongside the original positions as a volunteer.
- “Volunteer” for the Sandy Hollow Westpac Rescue Helicopter Service 2016–2017
Assisted with heavy lifting and event organization of the Charity Horse Ride and Car Show.
